BROOKHAVEN NATIONAL LABORATORY

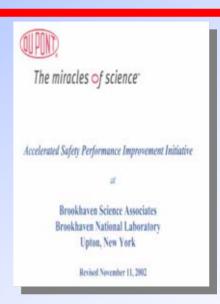

EMPLOYEE SAFETY RIGHTS AND OBLIGATIONS

- 1. I have the right to work in a safe and healthy environment.
- I have the right and obligation to issue a STOP WORK ORDER to protect myself, co-workers, and others from imminent hazard situations. I have the right to receive information about how my work environment may affect my health.
- I have the right to provide feedback to my co-workers, supervisors, and other appropriate individuals in order to increase the safety of a given job or the workplace and to protect the health of co-workers.
- I have the right to expect appropriate engineering controls, administrative controls, tools, and personal protective equipment — and the obligation to use them — so that I may perform work in a safe manner.
- I have the responsibility to follow all safety procedures and precautions as outlined in SBMS, including ES&H Standards for Work Planning & Control and Experimental Safety.
- I have the responsibility to maintain my training and qualifications to enable me to do my job safely.
